October 24 , 2008 from 8 am – 4 pm

Although all trees and shrubs are for conservation purposes only and shall not be used as ornamentals or for landscaping, land-owners living in urban areas are encouraged to plant these species as well. Proper selection of species can provide wildlife habitats, shade, windbreaks, or erosion control.

Due to the perishable nature of nursery stock, variability in storage, handling, planting, and weather conditions, the Menard County SWCD cannot guarantee tree survival and will not offer refunds for failed plantings.
